

Hutch End Cap

We are excited to introduce our new end cap that coordinates with the existing DaySpring 14-Tier Card Rack fixture!

The features of our new end cap allows you to beautifully display multi formats or add two additional feet to your current card line. The thinner width allows your shoppers to quickly view the card offering on display behind the end cap. The crown molding on the header creates beautiful detail and features the new DaySpring logo. The hutch is the largest component of the end cap, which ships completely assembled with the header attached. The header is open at the top to allow overhead light to enter from above, eliminating hard shadows and brightening the overall display without the use of additional lighting.

DaySpring's NEW Hutch End Cap is versatile and flexible to serve many of your display needs.

The optional components of the end cap are shown on the next page.

Each available option creates versatility on how products may be displayed:

- The new end cap can hold a 2' wire overlay, if you want to feature a DaySpring Stand Alone line.
- Purchasing coordinating Shelves and the detachable Display Table will allow gifts to become the focal point of the end cap.
- By adding the 5-Tiered card tray and Display Table into the hutch, seasonal cards and gifts can be pulled together for a seasonal statement.
- The lower shelf of the Display Table can hold back stock for the items displayed above.

NOTE: By using the Metal Anchor Base, the new Hutch End Cap can securely stand alone, unattached from the 14-Tiered fixture, to display the two foot wire overlay safely as a freestanding hutch.

You will find many uses for this end cap. Whether attached to the card rack or used freestanding, this fixture will hold multi formats of DaySpring products, display them with ease, and create an eye-appealing presence for your shoppers.

**FULL 2' WIRE OVERLAY
WITH ANCHOR BASE**

Card Tray 113415
Metal Anchor Base 115378

NOTE:

Card tray can be free standing when upright assembly is used with the metal anchor base.
